

THE PURPOSE OF THE ABOVE CARTOON is to attract the attention of the public to one of the greatest products of the century—Kretol. What is Kretol? Kretol is a chemical combination produced by the dry distillation of a certain English coal; is an alkaline carbolate, being

a preparation of coal-tar cresolates, after the removal of all but 9 per cent. of carbolic acid by addition of rosin and alkalis. It has a tar-like odor, and is soluble in water in all proportions, forming with it a white, milky emulsion.

KRETOL The Greatest Preventive of Disease Known to Science

ITS USES: KRETOL is a perfect antiseptic, germicide, insecticide, and on account of these properties has a wide range of application.

KRETOL FOR THE PERSON.

Crude or concentrated KRETOL is exceedingly efficacious in cases of cuts, scalds, burns, or bruises. It is the greatest antiseptic known. Use a little in the bath always. Use refined KRETOL for the teeth, as a gargle for sore throat, and to bathe the face and neck—it will soften the skin and improve the complexion. Use the KRETOL Medicated Soap—the finest soap in the world—for eruptions of the skin, prickly heat, and as a shampoo for the hair. It is an infallible antiseptic; can be used with great success in cases of skin diseases or ulcers. The KRETOL KOLD KREAM can be recommended to anyone; it is made from seven of the best antiseptics known to science, KRETOL forming the most important part in its composition. KRETOL ECZEMA CURE is the best remedy for eczema ever discovered. Kretol Bath Solution for ladies' private toilet.

KRETOL FOR THE HOUSE.

Crude KRETOL is the most powerful disinfectant there is, and being non-poisonous, non-acid, and having an agreeable and very slight odor, it is very useful about the house. There is nothing like it for disinfecting sinks, cuspidors, garbage cans, and it is simply invaluable in the sick room. It will drive away water bugs, vermin, and moths. Carpets may be sprayed with it. KRETOL in a "Daisy" sprayer to sweeten your refrigerator, but be sure to have it weak enough so as not to impart any taste to the food. It is impossible to enumerate all the uses to which KRETOL can be put with advantage about a home. It can render a house innocuous to disease germs and free it from noxious odors and insect pests. Its trifling cost is also a strong recommendation.

KRETOL FOR THE GARDEN.

KRETOL is quite harmless to plant life, but drives away all insects. Used in a spray solution of one part Kretol to one hundred parts water will easily rid trees or plants of insect pests. The Commissioners of the District of Columbia could have annihilated the entire caterpillar scourge at a very small cost by spraying the trees with KRETOL.

KRETOL FOR LIVE STOCK.

Concentrated KRETOL, diluted with water, applied to animals will prevent flies from annoying them, will keep fleas from dogs or cats, and used in the henhouse will prevent lice from attacking the poultry. It will prevent scabs from bruises and galls made by harness or other causes, and a little put in the water given to poultry will prevent chicken cholera. The cost is infinitesimally small.

KRETOL IS SOLD BY ALL FIRST-CLASS DRUGGISTS.

ENERGETIC MEN With Capital Can Make Money By Securing States Not Yet Contracted For.

BURGHERS FAIL TO YIELD.

No News Concerning the Effect of Kitchener's Proclamation.

Conclusion of the Trial of Broeckman on a Charge of Espionage—Johannesburg Awakened by the Sounding of the Alarm System.

PRETORIA, Sept. 16.—Yesterday was the last day for the Boers to surrender under Lord Kitchener's proclamation. No news has been received in regard to the effect of the proclamation, but there are no reliable indications that there have been important surrenders.

During the trial of Broeckman, formerly a colleague of Dr. Krause, the former Transvaal official who is under arrest in England, on a charge of espionage, the defense objected to military jurisdiction while civil courts are in existence, and quoted the English law to support this contention.

Many incriminating documents were found in Broeckman's house, some of which had been printed on the premises. The prisoner appeared to feel his position keenly and looked to be ill. The trial was concluded today.

Johannesburg was awakened yesterday by the tooting of many whistles and the banging of the guns of the forts and ringing of the alarm system. It was not one or merely sent out to test the working of the system. In consequence there were many wild rumors in the town. The mine guards rushed to their positions promptly, ready to receive any Boers that might make an attack.

TO RETURN TO ENGLAND.

General and Lady Hildyard to Sail From Cape Town.

CAPE TOWN, Sept. 17.—General and Lady Hildyard will sail for England on the Hawarden Castle Thursday.

Colonel Scobell, who has been operating against the Boer invaders in the northern part of the colony, has returned to Cape Town.

It is reported that the Boers have shot six unarmed natives in the Steynsburg district on suspicion of being spies.

Died at His Post.

ALTOONA, Pa., Sept. 17.—James Criste, sixty-three years old, was found dead at his post of duty. In the Pennsylvania Railroad Company's watchbox at the entrance to their car shops on Chestnut Avenue and Fourth Street, here, early yesterday. Neuritis of the heart is given as cause of his sudden demise.

IN MEMORIAM.

BURLEY—In loving remembrance of our dear daughter and sister, MARY BURLEY, who departed this life three years ago today, September 17, 1898.

You are not forgotten, Mary. Nor never will you be. As long as life and memory last We will remember thee.

THE FAMILY.

BARRITT—On Tuesday, September 17, 1901, at 6:30 o'clock a. m., OLIVER D. BARRITT, attorney-at-law.

A VICTIM OF FOUL PLAY.

Unknown Man Dead From Injuries Near Norristown, Pa.

NORRISTOWN, Pa., Sept. 17.—Coroner Ashton is busily engaged in sifting out the case of a man who died at Charity Hospital yesterday, and whose death is apparently a mystery.

The man, who is unknown, was found lying along the Reading Railway Company's tracks at Bridgeport Saturday night. His skull was fractured, and there was an ugly cut over his right eye. The crew of a shifting train were attracted to his side by his groans, and they found him in an unconscious condition. He was removed to the hospital, where he died without regaining consciousness.

The only train that passed near the point where he was found was a freight, the crew of which are positive that they did not strike him. When found there were no valuables upon his person, and the thing that might point to his identity was a ticket from Philadelphia to Conshohocken.

The man, who was about 40 years old, with smooth face and of medium height. He wore clothes of good material. The coroner does not believe that the man met death on the railroad.

SHOT BY HIS PLAYMATE.

A Pennsylvanian Likely to Die From His Wound.

ALTOONA, Pa., Sept. 17.—Pearl Fleich, aged eight years, accidentally shot her playmate, Harry Smith, aged five, here yesterday. The bullet entered the boy's left cheek, glanced downward and is supposed to be lodged in the jawbone.

Pearl had noticed that her father kept the weapon on top of the sideboard in the dining-room. As it was out of reach she left her chair on top of another, and climbing up secured it. Running to the street she met the Smith boy, and fired a shot at him.

The wound, it is feared, may result fatally.

KILLED WITH A KNIFE.

Fatal Quarrel Over a Woman at Pottstown, Pa.

POTTSTOWN, Pa., Sept. 17.—Mike Hudock and Michael Mousk, employees of the Warlock Iron Company, figured in a deadly combat in Hungarian Row last night, the result, it is said, of a long-standing grudge between them. Mousk finally drew a huge butcher knife from his pocket and buried it almost to the hilt in his antagonist's throat, severing the jugular vein and causing instant death.

In a corral, and at a hearing last night conducted by District Attorney Hendricks, Mousk was committed to the county jail. He has a wife and child in the old country and recently came here from Pottstown.

Charges are made by Hudock that Mousk was intimate with the dead man's wife.

Bodily Shocked by Lightning.

LANCASTER, Pa., Sept. 17.—During a heavy thunderstorm that passed over the southern section of the county Sunday night, a horse driven by Elmer Bowman, of Little Britain township, was struck by lightning and killed. Bowman and a girl companion were rendered unconscious, and for a long time appeared to be dead. They will probably recover.

When weary and brain fatigued, seek and find relief in Royal Headache Tablets. 4 doses 10c.

ARRIVALS FROM LONDON.

Sir Claude MacDonald Among the Minnehaha's Passengers.

NEW YORK, Sept. 17.—Among the passengers who arrived this morning on the steamer Minnehaha from London were: Rev. P. K. Cady, D. D., Rector Collins, Dr. Judson Deland, Edwin A. Denham, Franklin B. Dexter, Dr. T. C. Gilchrist, Kenneth Gordon, the Hon. George Gray, F. A. Hammond, Sir Claude MacDonald, H. M. Hitchcock, Lady MacDonald, Willard Peck, W. W. Pusey, W. B. Saunders, Dr. P. H. Sturges, A. M. Townsend, and Augustus Wetmore.

FATALLY HURT BY CYCLOPE.

House Containing Aged Couple Is Completely Overthrown.

HUNTINGTON, Conn., Sept. 17.—A cyclone of terrific force struck the northern part of this town during yesterday's thunderstorm.

The house of John Fawley was completely overturned and Fawley and his wife, both aged people, who were asleep within, were taken out in a dying condition.

Many barns were unroofed and the roads in several directions made impassable by fallen trees.

RED WAIST ALMOST FATAL.

Cow Attacks a Girl Wearing a Scarlet Garment.

WINSTED, Conn., Sept. 17.—After being warned not to go into the cow lot while wearing a bright red waist Edna Blouin, the young daughter of a Thomaston farmer, ventured into the pasture Sunday and had a narrow escape from being gored to death.

The child was on her way to see her father, who was milking some distance away, when a cow deserted the pasture and started after her. Before Blouin could reach her daughter the animal had struck the girl in the breast, tearing her dress from head to foot and knocking her to the ground.

Blouin dealt the animal a heavy blow with an axe on the head. The little girl's injuries are not considered dangerous.

ROBBERY OF A POSTOFFICE.

Colored Boys Take a Small Amount of Cash at Suffolk.

SUFFOLK, Va., Sept. 17.—James Broadnax, Joshua Bunn, and James Teller, colored boys, aged from thirteen to fifteen years, last night robbed the Suffolk postoffice of a small amount of cash.

The robbery was brought about by the publicity with which the booty was divided. Broadnax went to the general delivery window, and after prying away the fastenings opened the money drawer and took out what coin he could reach.

After going under an electric light and dividing the proceeds of the first haul Broadnax returned to search for more money, when Dr. A. S. Cheek fastened the outer door and held him for the police. The others were arrested later.

Chief of Police Brinley says the boys are members of what is called the "Jesse James" gang.

Married at Midnight.

HANOVER, Pa., Sept. 17.—An unusual wedding ceremony was solemnized in the Union Hotel, at McSherrytown, when W. F. Suhl and Miss Anna A. Erlicher, both of Reading, Pa., were married at midnight Saturday. Rev. Ferdinand Hosce, of New Oxford, officiated.

THE HUNTERSTOWN FIGHT.

A Civil War Engagement of Which Little Is Known.

It Took Place While the Battle of Gettysburg Was in Progress and Was Almost Entirely Overlooked by Historians—Story of the Conflict.

HUNTERSTOWN, Pa., Sept. 17.—A few days ago Col. John P. Nicholson, Major Robbins, and Colonel Hope, of the Battle-field Commission, erected a handsome marker in the public square of Hunterstown, bearing the following inscription:

"Army of the Potomac, July 2, 1863. 'Second, Fifth and Sixth Corps; Lockwood's Brigade from the Middle River, and all who desired to see them should come up to the square. The square was soon crowded and the head of Stuart's command soon appeared. An officer at the head of the column waved his sword and ordered the people to disperse, but Captain Crawford told the man he held the town and had invited the citizens to see the troops, and the man rode on up the road toward Gettysburg.'"

After the Confederates had passed through the town there was a great deal of activity manifested by the pickets, and about "supper time," or 4 or 5 o'clock, a great number of men were seen on the turnpike on the Hunterstown road.

Called out by the pickets, the men were seen to be heading for the town, and Captain Crawford formed his men in the square and commenced shelling the road leading north, west, and south. He then sent General Custer out to the Park Springs Road with a body of cavalry, and that officer soon returned and reported the men were heading for the town.

General Custer then sent a body of cavalry to the west and south of the town. The Confederates held a wooded knoll about a half-mile from them on the road to Gettysburg. Custer now charged the Confederate position, and the Confederates made a counter-charge over a level piece of road and a terrible hand-to-hand conflict ensued. Meanwhile the men were seen to be heading for the town, and Captain Crawford formed his men in the square and commenced shelling the road leading north, west, and south. He then sent General Custer out to the Park Springs Road with a body of cavalry, and that officer soon returned and reported the men were heading for the town.

upon the part of the men composing the rank and file.

On Wednesday, July 1, the big guns of both armies could be distinctly heard in the fight at Gettysburg, five miles south; and the Confederates informed the citizens that a big battle was raging, although there was no unusual concern manifested.

On Thursday, July 2, Captain Crawford told the citizens that John Stuart's cavalry would soon pass through the town, and all who desired to see them should come up to the square. The square was soon crowded and the head of Stuart's command soon appeared. An officer at the head of the column waved his sword and ordered the people to disperse, but Captain Crawford told the man he held the town and had invited the citizens to see the troops, and the man rode on up the road toward Gettysburg.

A ROBBER SEEKS RELEASE.

Notorious Criminal Wants to Profit by a New Law.

SAN FRANCISCO, Sept. 17.—"Chris" Evans, the notorious train robber, who, yesterday with John Sontag, terrorized a large part of the San Joaquin Valley, is seeking release from the Folsom prison on parole, under the new State law. Evans has been a model prisoner, except in the first months of his confinement. He has only one arm and one eye, and his physical strength is said to be much impaired. He will ask for release on the score of his health. His application will be opposed strongly by James Hume, head of the detective force of Wells, Fargo & Co.'s Express. Hume spent two years and many thousands of dollars hunting up Evans, and he does not believe in the reform of the prisoner. He thinks if this human wolf were turned loose again he would return to train robbing. Evans and Sontag began their first robbery in 1893, and in a year and a half they had won a dozen trains and killed five men. Evans used a sawed-off shotgun, and his aim was deadly. After each robbery the bandits returned to their home in Visalia, and buried their plunder.

When the detectives at last discovered the hideout of the desperado, for it had become one of the stock answers of the town to "Josh" Evans when he broke through the bars of the prison, they broke into the hideout and found the train robbers. The detectives attempted to surround Evans and Sontag, but they broke over the hills to the west and Kipatrick followed into the town and unlimbered a battery in the square and commenced shelling the road leading north, west, and south. He then sent General Custer out to the Park Springs Road with a body of cavalry, and that officer soon returned and reported the men were heading for the town.

General Custer then sent a body of cavalry to the west and south of the town. The Confederates held a wooded knoll about a half-mile from them on the road to Gettysburg. Custer now charged the Confederate position, and the Confederates made a counter-charge over a level piece of road and a terrible hand-to-hand conflict ensued. Meanwhile the men were seen to be heading for the town, and Captain Crawford formed his men in the square and commenced shelling the road leading north, west, and south. He then sent General Custer out to the Park Springs Road with a body of cavalry, and that officer soon returned and reported the men were heading for the town.
